Sewgroup Organisation

SewGroup

A group of companies dedicated to the Sewing and Craft Industry. Twelve companies make up this specialist, vertically integrated global organisation, owned and operated by six directors with many years of industry experience. The key companies in the group are listed below.

HTL

Founded in 1991, our Hong Kong based product creation, production, quality control, shipping and logistics company. Employing around 75 staff, HTL produces and supplies product to key distributors in over 60 countries around the world. HTL gives the SewGroup organisation unique supply abilities.

Welltech - A major production, packaging and warehousing hub based in Southern China

Our own China factory for manufacturing and packaging product. Welltech has huge experience in producing injection moulded product and also enables us to consolidate and package goods from multiple vendors in China. It maintains very high standards in terms of product quality and presentation. Welltech employs over 250 dedicated staff solely focused on production. Welltech is situated in Southern China.

Groves - Stock in UK for supply to UK & Ireland markets

Founded in 1966, Groves has grown steadily to become the leading distributor to the Sewing and Craft industry in the UK and Ireland. Groves combines supply of well known SewGroup brands such as Milward, Hemline, Sew Easy, Klasse, Hobby Gift, Trimits, Purelite and more, with globally famous brands such as Gütermann, Fiskars, Pony, KnitPro, Clover, Madeira, DYLON, Tilda Fabrics, DMC, Anchor, Vervaco, Diamond Dotz and many more.

Retailers of all sizes and all types, bricks and mortar and e-commerce specialists, love this reliable single source of supply, offering over 60,000 SKUs, a consistently high in-stock position, 100% in-stock guarantees on certain ranges, combined with rapid delivery via next day carrier.

Distrifil - Stock in France for supply to EU Markets

Founded in 1995, Distrifil is one of France's leading suppliers to the Haberdashery Knitting and Craft industry. Distrifil specialises in supply of haberdashery, knitting yarn, sewing threads, ribbons, embroidery, zips and creative hobby products.

Distrifil operates an almost identical model to Groves, by combining supply of well known SewGroup brands such as Milward, Hemline, Sew Easy, Klasse, Hobby Gift, Purelite, Care & Create, Azurite and more, with globally famous brands such as Gütermann, Mettler, Fiskars, KnitPro, Clover, DMC, and more.

Retailers love Distrifil's great reputation for reliable high in-stock position and a range of over 60,000 SKUs available for immediate delivery to all EU markets.

SewGroup LLC – USA - Stock in USA for supply to the US market.

SewGroup LLC has been operating since 2023, supplying multiple customers within the US market. The 3PL stockholding facility conveniently located in Memphis Tennessee, holds stock of a wide range of items for rapid supply from US stock to distributors and retailers nationwide.

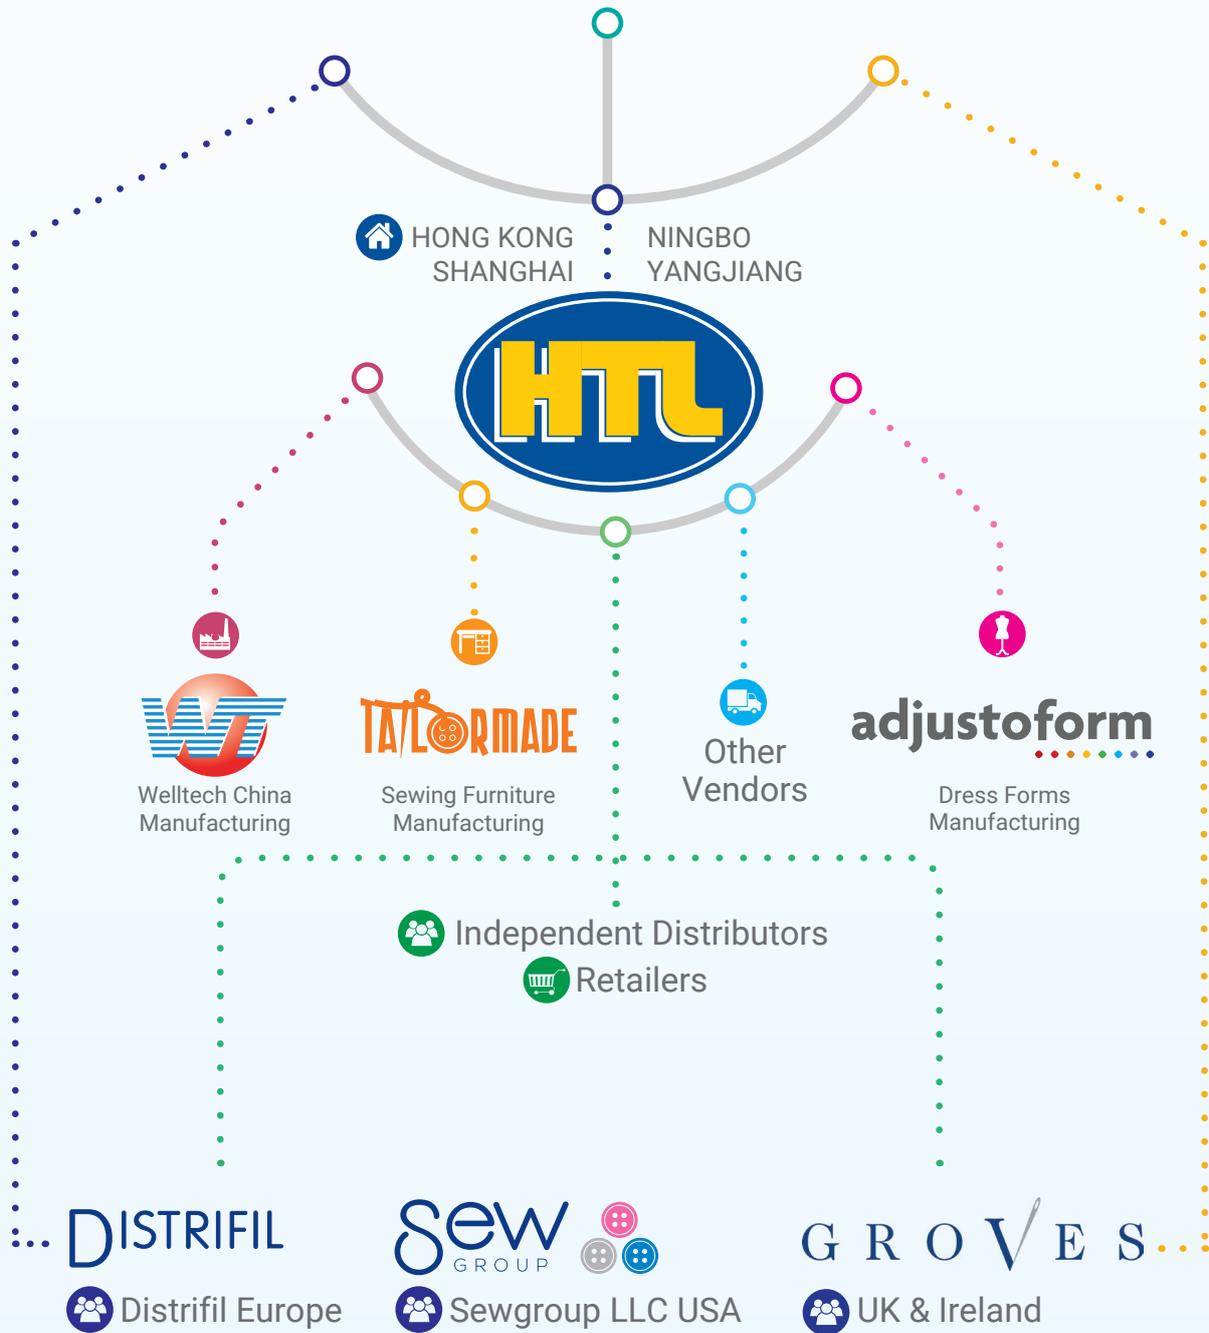

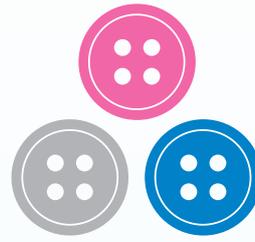

Adjustoform - A world class Dressform manufacturer with factories in UK and China.

Founded over 50 years ago, Adjustoform has grown to become the world leader in dress form manufacturing, constantly developing refining and improving their range to ensure that all customer expectations are met. All dress forms, branded and private label, are designed and built to last. A true quality manufacturer, with production facilities in Kent – UK for supply to UK and EU markets and mainland China for supply to US, Asian and Australasian markets.

Tailormade

Tailormade was founded in 1999 by SewGroup. Sewing machine furniture has always been in our blood. Today, Tailormade sewing machine cabinets, craft furniture and accessories are exported globally to many countries, with stock held in the USA, United Kingdom, and our European warehouse. Tailormade has an extensive range of products, catering for hobby and home sewing enthusiasts at all levels, from beginner to expert.

HTL - PRODUCT DEVELOPMENT

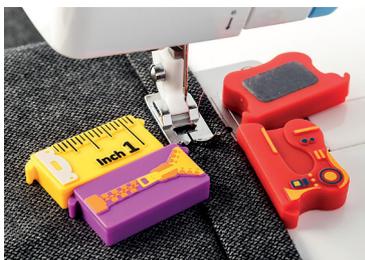

HTL has a dedicated in-house New Product Development (NPD) team. This team develops on average around 300 new products per year. HTL believes that it is vitally important to keep up with market and fashion trends and to have a steady flow of new products to keep ranges fresh. HTL's International Distributor partners, value highly this stream of creativity and newness.

At HTL, our passion and strength is innovation. We have the resources on-hand to respond quickly and efficiently to customer needs. We believe, that if we can develop and produce the very best tools, accessories and storage solutions, then success will follow for HTL and its key customers.

We are an International company, producing product for the world market. We are in a great position to share ideas and to learn from our business partners. Innovation is very often a two way street with ideas flowing backwards and forwards between partners during the year. We enjoy working in partnership with our long standing and valued customers.

HTL's senior sales-team travels the world regularly to gain inspiration and ideas when sourcing new product. Meeting key partners periodically face to face usually produces the best results. Feedback from customers often results in excellent new ideas and also improvements to existing product as a result of consumer feedback.

There is no doubt that HTL is truly on the front foot when it comes to NPD and innovation. We have extensive Design, R&D and Testing departments. Sample makers are on-hand in Hong Kong, China UK and Australia to bring new concepts and ideas from the drawing board to the prototype stage quickly and efficiently. Overall the HTL and SewGroup organisation have almost 30 staff around the world involved in NPD and creativity.

WELLTECH - CHINA

A major production, packaging and warehousing hub based in Southern China

HISTORY

1992 Mr. Lai and Mr Samuel Ho, both qualified engineers and ex-employees of a large southern China plastic factory joined forces to start their own small plastic injection factory named Welltech Plastic Limited Hong Kong, which later opened a small plastic injection factory in Shenzhen China.

1994 HTL was introduced to Samuel and from that day forward Welltech started to become a major supply partner of HTL.

2005 Welltech was now HTL's largest vendor, so the shareholders of HTL agreed to acquire the majority shareholding of Welltech by purchasing 52% of the shares. Simon Castley was appointed as the Managing Director.

2018 Mr. Lai retired from Welltech after 24 years of directorship and operation allowing HTL & Samuel to increase their perspective shareholding to 68% and 32% respectively.

2026 Sewgroup acquires 100% shareholding in Welltech.

Fully integrated solar panels supply the factory and local community

HEAD OFFICE & FACILITIES

Large impressive building, covering 17,000 sqm. Featuring a 8,000 sqm production facility, 6,000 sqm warehouse and 3,000 sqm of offices, meeting rooms and showrooms.

LASER ETCHING & ENGRAVING DEPARTMENT

A modern facility with many laser cutters and etching machines.

INJECTION DEPARTMENT

A fully robotic injection department with 19 injection machines ranging from 50 to 450 tonnes injection, including various vertical injection machines.

PACKAGING DIVISION

Featuring many blister machines, double blister sealing, auto-stapling operations and a large in-house label and barcoding printing division.

FULL PRINTING DIVISION

Full printing division including multi-head pad printing, various sized hand silk screen tables and many auto silk screen machines. This division is in a separated room equipped with modern approved exhaust systems.

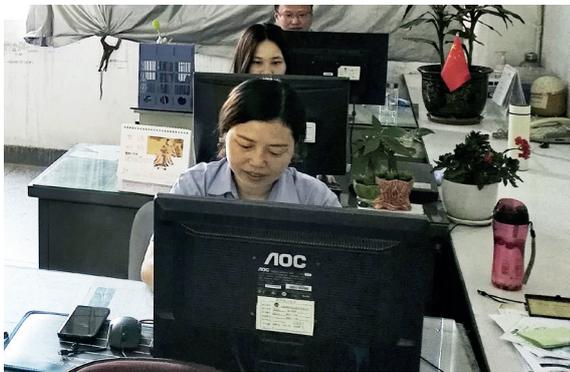

WAREHOUSE DEPARTMENT

Our warehouse features a large 3,000 sqm incoming and pre-shipment warehouse, including incoming goods control, product imaging and a direct fixed line access to HTL's Epicor ERP Hong Kong based operating system.

IQC / QC DIVISION

Fully staffed department operating within Sedex and ISO standards, with direct real time link with the HTL Epicor ERP Hong Kong based QC software which is designed to handle complex haberdashery / sewing notions needs.

R&D DEPARTMENT

A five man team of industrial designers & engineers, with all the common engineering software Autocad & ProE etc. equipped with various size 3D printers for cosmetic and functionality studies.

TAILORMADE DIVISION

Welltech is also the production hub of our sewing furniture factory, which produces our famous Tailormade brand of Sewing Furniture.

SOCIAL & BUSINESS COMPLIANCE

GROVES

Stock held in UK for immediate supply to UK and Ireland markets

ABOUT US

One of the UK's largest suppliers of sewing, knitting, quilting and needlecraft products. Founded over 60 years ago we have been providing consistently excellent service to the retail trade.

WHAT MAKES US ONE OF UK'S LEADING SUPPLIERS?

- With over 60,000 products, we stock the widest selection of items in the industry. This includes leading brands, trend-led items and seasonal products for sewing, knitting, quilting and needlecraft.
- Worldwide sourcing ensures a varied and competitive product offering.
- Our products and supply chains are all carefully and ethically selected for quality, consistency and reliability.
- Our large customer base consists of independent retail shops, large multiples and e-commerce retailers.
- Advanced IT systems for easy ordering
- Next day turnaround for all orders.
- 98% order fulfillment.

13,000m² purpose built warehouse

ENVIRONMENTALLY CONSCIOUS

- Our UK HQ is a highly insulated building, built to BREEAM Very Good rating. This indicates a high level of sustainable performance, representing the top 25% of UK new non-domestic buildings. The warehouse is so well insulated, that we operate all year round, even during a cold Winter week, without needing to use any heating. This saves an enormous amount of energy and CO₂ emissions and the environment is still comfortable to work in.
- Our HQ is located next to local bus routes and main pedestrian routes. Staff can easily use public transport or walk / cycle safely to work.
- Our 775 solar panels generate up to 2.1 mwh per day in Summer months and provide 40% of our annual electricity needs. We export around 117,000 kwh per back to the local grid.
- We have re-used cardboard boxes for over 60 years for most of our shipments to customers. We estimate that we have avoided buying over 1 million new cardboard cartons over the past 20 years alone, by re-using inbound cartons.
- We donate remaining cardboard residue to a local company who shred it and use it for packaging fragile items.
- On our website, we show with a live feed to our database, a "speedo" that shows the total number of plastic free packaged items in our range. This is increasing month by month.

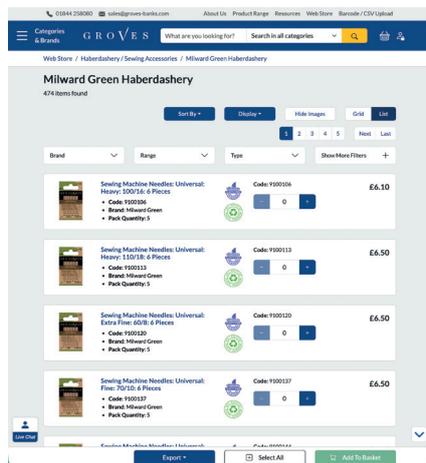

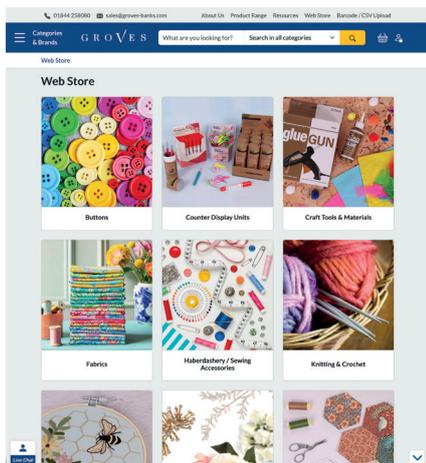

Knowledgeable sales staff to assist with any orders or questions

OUR SERVICE

- Our bespoke software system ensures maximum product availability - if we don't have 98% of our products on the shelves we're not happy!
- For selected brands we guarantee a 100% stock availability.
- Groves sales team can take orders and advise customers on product ranges, tailored shop display stands, promotions, merchandising and easy, reliable ordering methods.
- Ordering from us is simple - via our e-commerce website, Groves representatives, freephone, EDI (Electronic Data Interchange), e-mail or post.
- Many of our customers love using their mini barcode scanners making ordering quick and easy.
- We endeavour to dispatch all orders placed before noon on the same day. (Does not include orders placed on a Saturday or Sunday - these will be processed and dispatched on the following Monday).
- Customer orders are picked by trained staff using hand-held scanners. This ensures accuracy, and eliminates errors.
- Groves head office staff are available to answer customer queries.
- A product development team is in place creating new products and ranges every month.

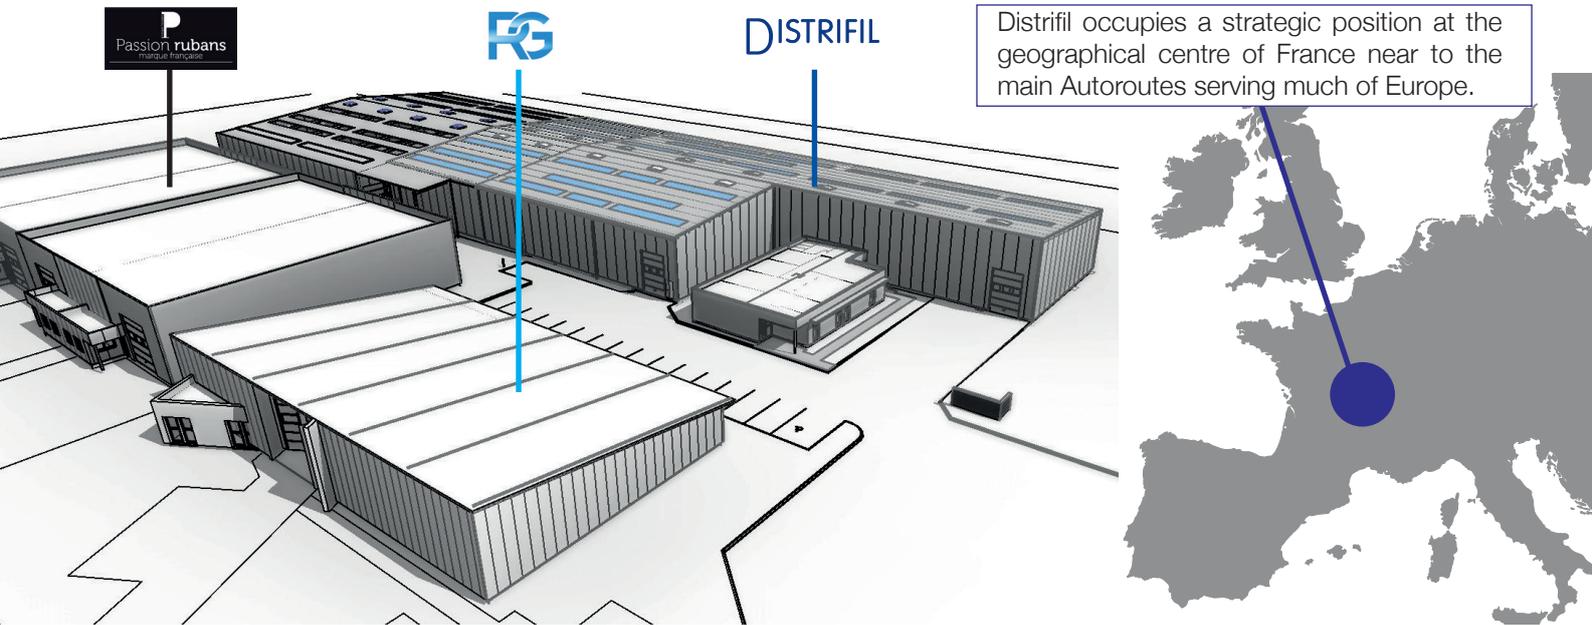

OUR BRANDS, PARTNER BRANDS & WEBSITE

The Eyoyo Barcode Scanner allows retailers to scan barcodes, upload and place orders via our website via USB connection to PC or Bluetooth directly to iPhone, iPad or any Android device.

ABOUT US

SewGroup LLC has been operating in the USA since 2023, supplying multiple customers within the USA market.

The 3PL stockholding facility conveniently located in Memphis Tennessee, holds stock of a wide range of items for rapid supply from US stock to distributors and retailers nationwide.

SEWAID PROGRAM

SewAid is the charitable arm of SewGroup.

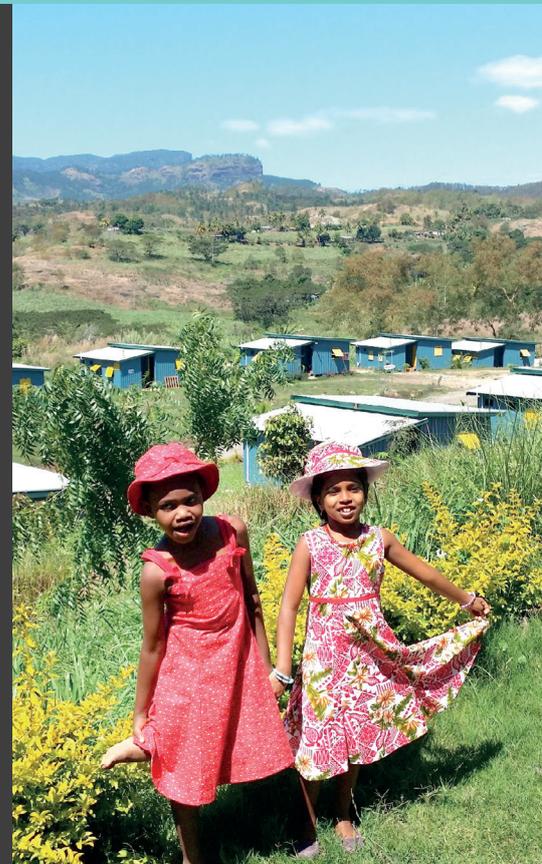

The SewAid program is primarily a teaching program for selected women in very poor countries. These women are given the opportunity to not only learn to sew, but are also provided with the sewing machines, equipment, fabrics, sewing supplies and skills they need to start a small home sewing business in order to escape from shocking poverty and make a better life for themselves and their families and allow them to contribute to the economies of their local communities.

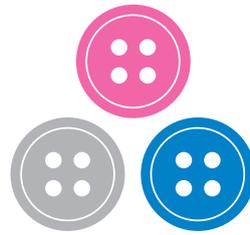

SewAid was initially set up and is now run by the founder of SewGroup, Mr Tony Castley, a past Governor of Rotary, and each SewAid program is administered in conjunction with Rotary International.

The SewAid Volunteer teachers donate their time & expertise, as well as fund their own travel, to participate in this experience of a lifetime. Consideration is given to their particular skills with regard to requirements needed to teach relevant sewing programmes, which to date have been run several times in Vanuatu, as well as in Indonesia, Mongolia, Porgera in Papua New Guinea, the Philippines, Madagascar, Cambodia, Tanzania and Uganda.

SewAid is funded by profits of the companies within the Group, with further donations of brand new sewing machines from some of the leading brands as well as parts and manuals for older donated machines. Pattern and fabric companies also support SewAid with donations of books, patterns and fabric.

For more information about the exciting work that Sewaid is doing, please visit the website www.sewaid.com
